Washing powder

Basic content:

100 g grated coconut soap 360 g soda for washing - mix together (1 washing dose is 70 g)

Add for white cloth:

1 spoon of percarbonate if washing at 40 or less degrees, add also TEAD (tetraacetylethylenediamine)

Dishwasher detergent

100 g soda for washing
100 g baking soda
50 g citric acid
50 g salt for dishwasher
plus salt for the tray and vinegar for the
polish agent

or

200 g percarbonate 50 g citric acid

Dry shampoo

1 part of corn starch
1 part of cocoa, to be adjusted according to hair colour
a drop of essential oil, for example lavender

- mix all together

Powder deodorant

2 spoons of starch 2 spoons of white clay (alternatively soda) can be added: powder sage and essential oil (EO)

- mix all together

Toothpaste

4 spoons of white clay
1 spoon of cinnamon
5 spoons of distilled water
couple of drops of EO
cloves, mint and eucalyptus
1 teaspoon of virgin coconut oil
5 g xylit (not necessary, but it is great)

- mix all together

Glass polishing agent

1 part of vinegar 1 part of distilled water 1 part of alcohol

- mix all together

Solid deodorant

1 teaspoon of coconut oil

1 teaspoon of wax

1 teaspoon of cocoa butter

1 teaspoon of baking soda

1 teaspoon of starch

couple of drops of EO(s) — women lavender and tea tree, men cedar tree (alternatively bergamot) and tea tree

Melt wax and butter in water bath. As soon as it is melted, pour coconut oil and take off from the hotplate. Pour soda and starch into the liquid mix, drop EO(s). Stir fast but properly and pour into a form.

Mouthwash

20 g sage
20 pieces of cloves
half a teaspoon of baking soda
couple of drops of EO
eucalyptus and tea tree

- make bouillon from sage and cloves and then mix together

Softener

250 ml of water 250 ml of vinegar (preferably wine vinegar, otherwise rather do not use for white cloths) 10 drops of EO, selected fragrance

- mix all together

Waxed napkin

cloth

beeswax

baking paper

- iron wax over the baking paper on the fabric

Candle

150 g of beeswax 30 g of coconut oil 1 teaspoon of EO wicks

- needed to be heated up

Glue

1 part of corn starch 1 part of water

- mix together

Bags from net curtain/ canvas/ cotton

remainders of cloth/ net curtains thread

- preferably have a sewing machine, otherwise it will take long

Perfume

various EO (essential fragrance, medium tones, distinctive scent)
alcohol (or emulsion and water)

- mix gradually

Toilet

Toilet bowl desinfection:

half a cup of sodium percarbonate – pour boling water and clean with toilet brush

Toilet seat desinfection:

10% citric acid solution (10 g citric acid plus 90 ml water)

Micellar Water

200 ml rose water
½ teaspoon liquid vegetable glycerin
½ teaspoon oil, such as argan, jojoba, sweet almond, grapeseed
+ optional:

a few drops EO, such as rose, lavender, or tea tree ½ teaspoon lecithin, granular or liquid

- Add all ingredients to a bottle (preferably dark), close it and mix it well
 - Or mix in a bowl

Winter lip balm

Ingredients for 30 ml

1 teaspoon of raw **beeswax**

1 teaspoon of **shea butter**

1 teaspoon of castor oil

1 teaspoon of **liquid honey**

Melt all ingredients in a bowl set into a double boiler (a larger pan with hot water). Outside the hotplate, stir energetically with a whisk. When the mixture becomes transcluent, pour into a little jar. Use up within 6–9 months.

Original source (in French)

Lotion bar

1 part beeswax (melted, can be substituted by carnauba wax)
1 part sweet almond oil
1 part coconut oil (melted, can be substituted by shea butter)

Melt beeswax in a double boiler. Gently stir in coconut oil and sweet almond oil (with a spoon used only for beeswax crafts) and keep going until the coconut oil is melted. Pour the melted mixture into moulds and allow to set for a few hours.
